CORE COMPETENCIES

- Delivery & Operations Management
- Gen AI Evaluation & Quality
- Responsible AI Awareness
(Real world Impact, Unfair bias, Explainability, Accountability, Privacy)
- End-to-End Project Ownership
- Automation & Workflow Optimization
(Appian, AI use cases)
- Data & Process Innovation
- Stakeholder Management
(Cross-Functional and Global)
- Process Improvement & SOP Development
- RASCI Framework Design & Accountability Models
- Hypothesis-Driven / Experimental Problem Solving
- Customer/Client centric initiatives
- Vendor and Brand registry expertise
- Compliance & Risk Identification
- Data Analysis, Designing & Reporting
(Tableau Dashboard, Power BI Dashboard, GA4 Tagging, KPI tracking)
- Training Design & Team Development
- Strategic & Analytical Problem Solving
(“Dive Deep” Approach)
- Communication, Psychological Safety & Team Engagement

PROFESSIONAL EXPERIENCE & PROJECTS

ELSEVIER

Delivery Owner

Chennai | **May 2024–Present**

- End-to-end delivery of *journal supplements*, *operational integrity*, *automation initiatives*, *SOP standardization*, *review compliance & action*, and *adapting to new operating models*.
- Handling *International and Spanish Journal Supplements*, and *Digital Edition format creation* while adhering to timely execution, stakeholder co-ordination, and publication accuracy.
- Dedicated ownership on *high-profile-sensitive journals* based on quality, execution reliability, and stakeholder trust by maintaining *100% on-time project completion*.
- Stable operations during *multiple product transitions* through structured *knowledge transfer* by consistent collaboration and *SOP/Workflow documentation*.
- Setup and validated *Item Master*, *pricing setup*, and *project setups* as part of *Invoicing & Billing* to ensure precision, eliminate duplication errors, and maintaining *billing integrity* through processed verification.
- Identified data-supported *automation opportunities* (Appian), and presented to Operations Management Team, by demonstrating the *process concepts and tool optimization strategies* to enhance *operational transparency and efficiency*.
- Actively supported team engagement improvement through *OV score* increased from 7.7 to 8.2 and *eNPS* improved from 24 to 50.

Researcher Support Agent

Chennai | **Jan 2022–April 2024**

- Handled ~190+ daily *author and reviewer queries*, maintaining SLA compliance and clearing backlogs.
- Maintained 98% *CSAT* (target 95%) by focusing on *first-contact resolution and quality*.
- Analyzed *CSAT/DSAT trends* (Trend Analysis) to identify coaching opportunities, reducing repeat contacts and improving customer satisfaction.
- Led *Center of Excellence (CoE)* initiatives, including OKR designs, Confluence documentation, refresher sessions, and bite-sized training modules.
- Managed and updated process-specific information in the *knowledge articles linked with Journal Knowledge Base, Journal Information Pages (JIF), and Guide for Authors (GFA)*.
- Conducted cross-team knowledge-sharing “**Flashlight**” sessions and “**Rendezvous**” sessions, to increase global visibility for Researcher Support operations.

PROJECTS

- **GenAI evaluation & Feedback** for AI learning materials and adoption in operations as an *SME reviewer* for *Generative AI Learning pathway* in *Future Skills program*.
- **Process transition and adaptation** to *Spanish & Mexican journal projects* and *Digi Editions (Flipping book)* through in-house processing, while ensuring zero disruption, reducing vendor dependency and documentation.
- **APAC tracker for Oracle R12 setups, Delivery Owner Project tracker and Power BI-Supplement Dashboard** design and report creation for improving data accuracy, stabilizing invoicing, and project report database tracking.
- **Trained and mentored** cross-functional teams (Researcher Support and Global Pharma Operations), improving onboarding speed, adoption of new processes, and quality through hands-on training and live production audits.
- **Centralized SharePoint knowledge hub**, for user-friendly access to documents, tools and streamlining functional workflows.
- **Audits on AI-assisted workflows** like *PACE*, and *Aurora automation*, through gap-analysis and classification-accuracy improvement method.
- **Process improvement drives** to *reduce duplicate/false case flow* and improving queue efficiency.

GIMP Photoshop & Drillster

Amazon Seller & Vendor Central

Zendesk CRM, Paragon Incident
Management & Selection Central
Brand Registry

AMAZON DEVELOPMENT CENTER INDIA PVT. LTD.

Operations & Product Quality (SPS Mentor → Authentication Specialist)

Chennai | Feb 2019–Dec 2021

- Reviewed and approved *product listings* for *restricted categories*, ensuring *risk compliance* with Amazon policies, and *preventing unauthorized or fraudulent entries*.
- Conducted *risk assessments* and investigated *document manipulation* (invoices and vendor data), protecting *marketplace integrity*.
- Investigated suspected *document manipulation* by validating invoices, conducting outbound verification, and *detecting fraudulent activity* to protect marketplace integrity and enforce compliance policies.
- Resolved complex seller issues across *NA, UK, and EU marketplaces* related to Product information on websites, payments, listings, and account management.
- Consistently exceeded performance targets (*30+ cases/day* vs 25 cases target; *98% quality* vs 95% target).
- Selected for Business Continuity Plan (BCP) pilot during *high-volume surge*; transitioned into Product Quality role based on *performance*.
- *Mentored and trained* new hires and tenured associates, improving onboarding speed, resolution quality, and reducing escalations.
- Provided real-time *mentorship*, *handled escalations*, and *coached associates* to improve performance and reduce repeat issues.
- Supported global operations during pandemic-driven transitions, *ensuring continuity* and *operational stability*.

PROJECTS

- Supported the *feedback review team* and *restricted product approval workflows* through **upskilling**, that enabled seamless support across multiple verticals during high-volume periods.
- Designed a **standardized workflow** to fix *incorrect attribute updates* on Amazon detail pages, improving data accuracy.
- Built a **manipulation check framework** to strengthen *invoice verification* and *detect common fraud patterns*.
- Created structured **training materials** and *process guides*, improving **onboarding efficiency** and *team capability*.
- Delivered **audit insights** and weekly **quality feedback**, reducing process errors and improving *compliance accuracy*.
- **Coached and motivated** underperforming associates, *improving productivity, quality scores*, and overall *team performance*.
- Designed **presentation decks** to communicate *process changes* and *operational updates* during team huddles.

GROUPON SHARED SERVICES PVT. LTD.

Senior Support Representation

Chennai | Oct 2016–Dec 2018

- Managed end-to-end *customer support* across *orders, payments, account management, and refunds* via *live chat and email*.
- Consistently exceeded targets by handling *160+ chats* in *6 hours* (vs 80 in 8 hours), while maintaining *96%* (vs 92%) *quality* and *93%* (vs 85%) *CSAT*.
- Selected to support high-value *Costco accounts*, handling *payment validation, approvals* and *premium customer cases*.
- Cross-trained on *Salesforce* to support *merchant research* during high-volume periods.
- Acted as SME for *complex escalations*, providing real-time support to team members.
- *Trained and mentored* new hires through hands-on coaching, *improving readiness* and *performance*.
- Maintained *SLA compliance* while managing multiple concurrent chats efficiently.

PROJECTS

- **Global Live Chat UX improvement program member**, contributing to simplify the interface design and increased *chat handling capacity* (up to 3 concurrent chats).
- Drove process improvements through **GEMBA** initiatives, *refining macro templates* and *improving communication quality* for better customer experience.
- Redesigned **case transfer workflows** and *reason codes*, reducing SLA breaches caused by inefficient queue handling.
- Supported transition of *internal documentation* from static *PDFs* to **Zendesk-integrated workflows**, improving accessibility and case resolution efficiency.
- Contributed during *peak periods* by **handling additional high-priority** chats and emails, helping reduce queue backlog.
